

Thinking About the Water Cycle in Moro Canyon

Directions: Print this page and use the drawing below to show how you think water moves through Moro Canyon. (Or, if you don't have a printer, you can create your own drawing on a separate piece of paper!) Make sure to label any water cycle components or processes that you include in your drawing!

Water Cycle Components & Processes

Transpiration

Evaporation

Precipitation

Condensation

Groundwater

Soil Percolation

Erosion

Run-off

Ocean

Cloud
